

## **Education**

### ***University of North Texas, Denton***

Currently Pursuing Ph.D. in biology. Major Professor: Duane Huggett

### ***St. Georges University, Grenada***

Pre-medicine/Medicine – study abroad

### ***University of North Texas Health Science Center, Fort Worth***

Masters degree in Public Health (MPH), with a concentration in Community Health with emphasis in Epidemiology. Classes include: Biostatistics, Epidemiology, Advanced Cell Biochemistry, Environmental Health, Community Assessment and Health Management and Policy.

### ***University of North Texas, Denton***

B.S. in Biology with minor in Chemistry. Courses include: endocrinology, cell biology, forensic biology, *Special Problems* in Neuroscience at the Centers for Network Neuro-Science (CNNS).

### ***Cornell University, Ithaca, New York – Shoals MarineLab***

Course subjects included Underwater Research and Ecology as well as formal paper writing and submission. Courses taught by the world's leading researchers in each respective topic.

## **Organizations:**

Pan American Society for Clinical Virology

Texas Bio-Medical Research Institute

Golden Key Honor Society

Society for Epidemiological Research

Society of Environmental Toxicology and Chemistry

## **Academic Achievements:**

Beth Baird Scholarship, Ph.D. (full ride: tuition, fees, books)

Academic Achievement Scholarship, Ph.D. (augment; cost of living, etc...)

Travel Scholarship Awardee, Ph.D. (awarded to students traveling to present research)

Peer Tutor, Ph.D. (chosen for academic success/progress and GPA by UNT Learning Center)

Presenter of Research on Carbamazepine, Boston, MA.

Invented novel Micro-Imaging technique and presented this technique, Boston, MA.

## **Classes Taught:**

Biology 1082, 1112 (freshman biology)

Biology 2311, 2312 (anatomy and physiology, I and II)

Biology 1710 (majors biology)

Microbiology (Southern Methodist University [SMU])

Intro to Rocketry (Southern Methodist University [SMU])

Pharmacology (Selected lectures)
